

# WI-FI MANAGER APP // INSTALLATION GUIDE

1

Download the **Nex-Tech Wi-Fi Manager** app from the App Store or Google Play.

2

Select **Let's Get Started**

3

Select **Sign Up** and follow the on-screen directions.

4

Log in to your app.

5

On-board your router by selecting **OK**.

6

Follow the on-screen prompts and scan the QR Code on the router. If you have trouble, select **ISSUES SCANNING** to manually enter router info

7

Create a Wi-Fi name and strong password that includes upper and lowercase letters, numbers, and/or special characters.

Choose your Security Type: **WPA 2 – WPA 3-Personal is recommended.**

If Wi-Fi is already set up, select **Skip This Step.**

8

**YOU'RE DONE!** Start enjoying your new Internet service and the ability to manage it with the **Nex-Tech Wi-Fi Manager** app!

## Getting Started with the App

Nex-Tech Wi-Fi Manager allows you to manage your home or small business Wi-Fi network. Create a guest network for visitors without sharing your personal password, view and turn off Wi-Fi for connected devices, perform speed tests, and ensure Wi-Fi quality are some of the useful features within the app.
